First aid measures				
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.			
Skin Contact	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. In the case of skin irritation or allergic reactions see a physician.			
Inhalation	Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, (trained personnel should) give oxygen.			
Ingestion	Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person.			
Self-protection of the first aider	r Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Dry chemical. Carbon dioxide (CO2). Alcohol resistant foam.

Unsuitable extinguishing media

CAUTION: All these products have a very low flash point. Use of water spray when fighting fire may be inefficient.

Specific Hazards Arising from the Chemical

Vapors can form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapor explosion hazard indoors, outdoors or in sewers. Runoff to sewer may create fire or explosion hazard.

Uniform Fire Code Flammable Liquid: I-B

<u>Hazardous Combustion Products</u> Carbon oxides.

Explosion Data Sensitivity to Mechanical Impact No.

Sensitivity to Static Discharge Yes.

Protective equipment and precautions for firefighters

Move containers from fire area if you can do it without risk.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions	ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Stop leak if you can do it without risk.			
Other Information	Water spray may reduce vapor; but may not prevent ignition in closed spaces.			
Environmental Precautions				
Environmental Precautions	Prevent entry into waterways, sewers, basements or confined areas.			
Methods and material for containme	ent and cleaning up			
Methods for Containment	A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.			
Methods for cleaning up	Use clean non-sparking tools to collect absorbed material. Dike far ahead of liquid spill for later disposal.			

7. HANDLING AND STORAGE

Precautions for safe handling

HandlingHandle in accordance with good industrial hygiene and safety practice. Use protection equipment. Avoid contact with skin and eyes. Avoid breathing vap Keep away from heat/sparks/open flames/hot surfaces No smoking. Use go bonding connection when transferring this material to prevent static discharge explosion. Use with local exhaust ventilation. Use spark-proof tools and exp equipment. Keep in an area equipped with sprinklers. Use according to pack instructions.Conditions for safe storage, including any incompatibilities			
<u>Conditions for sale storage, including any incompatibilities</u>			
Storage	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and selectricity). Keep in properly labeled containers. Do not store near combustible materia Keep in an area equipped with sprinklers. Store in accordance with the particular nation regulations. Store in accordance with local regulations.
